PRIVATE CLOUD FOR FINANCIAL SERVICES

NO LIMIT TO NUMBER CRUNCHING

Financial services organizations are always on the bleeding edge of technology. The cloud and mobility have provided new opportunities to connect with customers and achieve operational efficiencies. However, data security and compliance are critical to safeguarding pertinent client account information.

The leading Infrastructure as a Service solution, TetherView, provides financial services organizations – banks, investment firms, and insurance companies – with a virtual computing environment that is secure, compliant, and can support a broad range of applications.

TetherView virtual desktops can be accessed via desktops, laptops, tablets and smartphones, enabling financial service professionals to access information from any device and location. Additionally, TetherView can support business continuity initiatives, mitigating the risk of downtime. Within minutes, virtual standby desktops can be activated if/when an outage occurs, ensuring operational uptime.

TetherView's private cloud solutions are compliant with the New York State Department of Financial Services cybersecurity regulations, FINRA, and NIST.
