PRIVATE CLOUD FOR HEALTHCARE

PATIENT CARE WITHOUT LIMITS

In today's highly digitalized world, organizations are struggling to keep up with their IT needs. Security concerns and compliance requirements are becoming a burden. TetherView's solution is perfectly constructed to eliminate technology headaches so that healthcare professionals can provide patient care without limits.

The leading Infrastructure as a Service solution, TetherView, provides the healthcare ecosystem – hospitals, medical offices, and clinics – with a virtual computing environment that is secure, compliant, and can support a broad range of applications, including electronic medical record (EMR) systems.

Additionally, virtual standby desktops can be utilized for business continuity when an outage occurs, ensuring operational uptime.

As medical professionals, administrative and billing staff become more mobile, TetherView virtual desktops can be accessed via desktops, laptops, tablets and smartphones.

The TetherView platform supports most healthcare regulations including HIPAA.
